Home Maintenance Checklist for August

Outside

- Inspect gutters and roof for any summer storm damage
- Trim trees and shrubs away from house, roof, and a/c unit
- Seal gaps around windows and doors before cold weather arrives

Inside

- Look for signs of moisture and mold under sinks, under windows, and in crawlspace
- Clean ceiling fans and light fixtures - they collect dust quickly in the summer
- Inspect plumbing for leaks

School is starting soon and it's a great time to lift up students, teachers, and families in prayer. We invite you to join Bachelor Creek Church at several local schools on August 10 at 6pm to pray for a safe, joyful, and successful school year for everyone heading back to the classroom.
